

NEW SERVICE CONCEPT FOR EAC2 HIGH

With over 15 years field experience and a field population of more than two million EAC sold in OE, we ensure highest safety standards, reliability and optimal service. In order to continuously ensure the highest quality and optimal servicing of the EAC2 High system a new range of service parts is now available for the Independent Aftermarket.

The EAC2 High provides intelligent air management of the vehicle pneumatic system and offers the following main functions:

- › Controls the provision of the brake and auxiliary circuits with pressurized air
- › Fuel saving by intelligent compressor control
- › Trailer or parking brake reservoir not required, due to smart control
- › Cartridge maintenance prediction
- › Higher reservoir pressure available for air suspension

The following parts are now available:

- › Oil Separator Cartridge (high pressure): OSC K147320 with M42x1,5 RH – thread
- › Tyre inflator valve

Benefits at a glance

- › Original equipment quality – no compromise in energy saving functions and lowest possible downtime
- › Service strategy includes NEO diagnostics and guided troubleshooting
- › Best-in-class air drying with the Knorr-Bremse oil separator cartridge (OSC)
- › All parts for the optimal service included for easy plug 'n' play
