

MERITOR® REMANUFACTURED CALIPER PRODUCT UPDATE

Knorr Calipers Range Extension

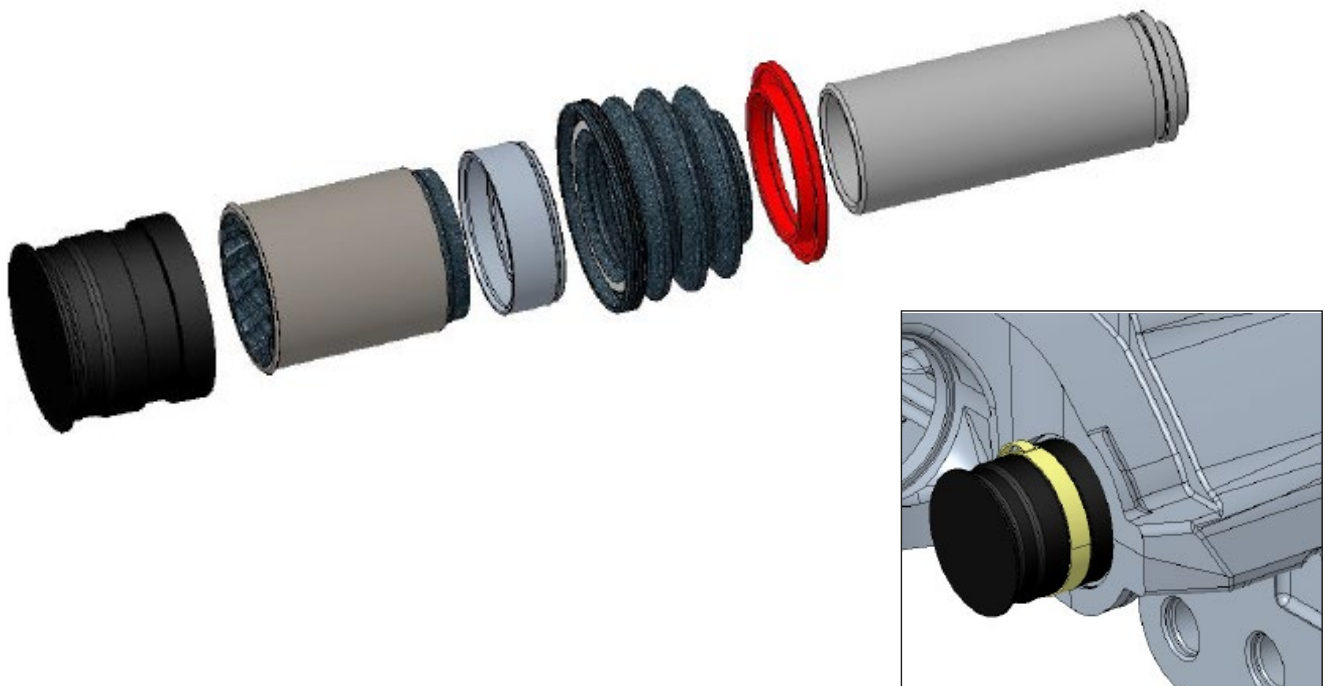

We are pleased to announce to you the latest additions to the range of Meritor remanufactured calipers. These are replacements for Knorr SB & SN7 product types on Scania applications.

- OE Equivalent fit, function & performance.
- Meritor quality remanufactured calipers.
- Sustainable, recycled product.
- Improved performance over standard bushing.

SALES REFERENCE		APPLICATION	KNORR X-REFS	SCANIA X-REFS
MXC9103225	SN7 0°	Various Scania Bus & Truck >>2016	K100268, K100270, K146388K50, K154528, SN7503RC	2187969, 2187975, 2645205
MXC9103226	SN7 0°	Various Scania Bus & Truck >>2016	K100269, K100271, K146387K50, K154529, SN7513RC	2187971, 2187978, 2645206
MXC9103227	SB7 93°	Various Scania Bus >>2016	K040946K50, K114413, K114415, SB7202RC	2534805, 2534807
MXC9103228	SB7 93°	Various Scania Bus >>2016	K040945K90, K114414, K114416, SB7212RC	2534806, 2534809

KNORR CALIPER RANGE EXTENSION

These calipers have a special, Meritor designed, bushing system that provides improved support to the Guide Pin as well as being capped to prevent contamination of bush & guide pin. They are designed to replace Scania calipers with 'Red & Black' Double Bellows sealing. See below for product identification.

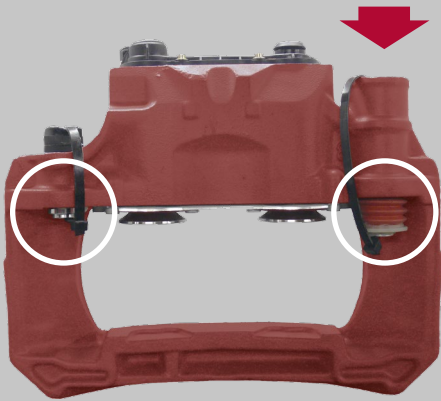

All are remanufactured in Meritor's own facility using cutting edge remanufacturing processes and techniques. These parts have been subjected to extended testing processes ensuring OE equivalent life and durability. Existing calipers for Scania applications remain in our range ensuring you have a full choice of caliper specification. They can be identified as follows:

SALES REFERENCE		APPLICATION
MXC9103123	SB/SN7 0°	RH Single Bellows axial - with potentiometer
MXC9103124	SB/SN7 0°	LH Single Bellows axial - with potentiometer
MXC9103125	SN7 0°	RH Double Bellows (Red x2) axial - with potentiometer
MXC9103126	SN7 0°	LH Double Bellows (Red x2) axial - with potentiometer
MXC9103127	SB7 93°	RH Double Bellows (Red x2) radial - with potentiometer
MXC9103128	SB7 93°	LH Double Bellows (Red x2) radial - with potentiometer
MXC9103225*	SN7 0°	RH Updated Double Bellows (Red & Black) axial - with potentiometer
MXC9103226*	SN7 0°	LH Updated Double Bellows (Red & Black) axial - with potentiometer
MXC9103227*	SB7 93°	RH Updated Double Bellows (Red & Black) radial - with potentiometer
MXC9103228*	SB7 93°	LH Updated Double Bellows (Red & Black) radial - with potentiometer

* New Calipers

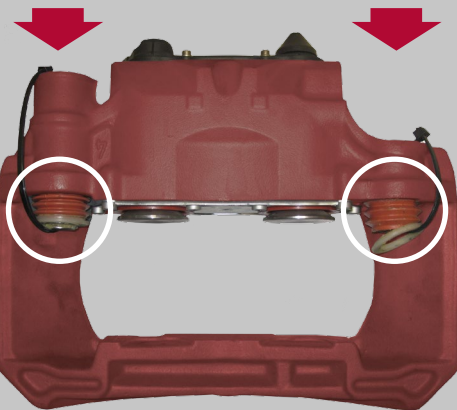

KNORR CALIPER RANGE EXTENSION

Scania Caliper Identification – Applied to both Axial & Radial Versions

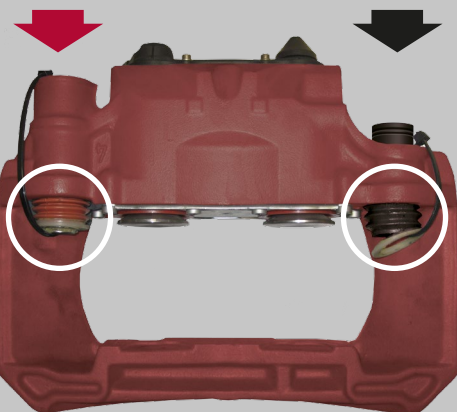

Single Bellows

Caliper has a rubber bellows only at the end of one guide pin.

Double Bellows

Caliper has a rubber bellows at the end of both guide pins. These are both red in colour.

Updated Double Bellows

Caliper has a rubber bellows at the end of both guide pins. One bellows is red & one is black.

Please note – these references do not replace the calipers identified as SN7-HP or SB7-HP fitted to Scania applications 2016 onwards.
